The Deka 8G30H is an American made GEL deep cycle battery. The GEL batteries offer many significant advantages over conventional liquid acid batteries. Because there is no liquid electrolyte to leak or spill out of the battery, the Deka 8G30H can easily be installed in hard-to-reach locations. There is no need to check fluid levels. The Deka 8G30H gelled construction also eliminates vibration damage to plates. These are manufactured by East Penn Manufacturing who also manufactures batteries under the name MK Battery.

The Deka 8G30H is a direct replacement for any group 30H lead-acid, GEL, or AGM batteries.

Warranty is for 1 year free replacement.
